Worksheet #2 Part 1:

Using AI for Writing Assistance and Improvement S1E5

Objective: Students will learn how to use AI tools to improve their writing through tasks like brainstorming, drafting, improving sentence structure, and proofreading. They will reflect on the changes made by AI and discuss how it can enhance their writing process.

Part 1: Brainstorming with AI

1. Choose one of the following writing prompts:
   o "Write about the importance of friendship in difficult times."
   o "Explain how technology is changing education."
   o "Describe a world where humans live on another planet."
2. Before drafting, ask an AI tool (ex. ChatGPT) to help you brainstorm ideas. Ask for suggestions on:
   o Key points to include.
   o Possible examples to support your argument.
   o Creative ways to start or end your essay.

Task:

- Write down 3-5 ideas suggested by the AI that you could use in your essay.

Reflection:

- Did the AI suggest any ideas you hadn't thought of?
- How helpful was the AI in coming up with examples or supporting details?

Teacher's Notes:

- Encourage students to reflect on when and how AI made meaningful improvements to their work.
- Discuss with students the importance of balancing AI's suggestions with their own voice and style.
- Highlight the potential of AI to speed up the writing process without replacing critical thinking.
