Worksheet #2 Part 3:

Using AI for Writing Assistance and Improvement S1E5

Objective: Students will learn how to use AI tools to improve their writing through tasks like brainstorming, drafting, improving sentence structure, and proofreading. They will reflect on the changes made by AI and discuss how it can enhance their writing process.

Part 3: Proofreading with AI

1. Write a short 4-5 sentence paragraph on a topic of your choice. This time, try to include at least two spelling mistakes, two grammar errors, and one punctuation mistake (on purpose!).
2. Input your paragraph into an AI tool and ask it to proofread for grammar, spelling, and punctuation errors.

Task:

- Record the errors that the AI tool detected and the corrections it suggested.
- Make the suggested changes to your paragraph and rewrite the improved version.

Reflection:

- Did the AI catch all the mistakes? Were there any that it missed?
- How useful was the AI as a proofreading tool?

Teacher's Notes:

- Encourage students to reflect on when and how AI made meaningful improvements to their work.
- Discuss with students the importance of balancing AI's suggestions with their own voice and style.
- Highlight the potential of AI to speed up the writing process without replacing critical thinking.
