

Worksheet #5: “Using GenAI to Create Custom Mind Maps and Concept Webs” Part 4~ S2E10

Overview

This worksheet will help you use AI tools to create a mind map or concept web. Mind maps and concept webs visually organize information, making it easier to understand complex topics and remember key details. Follow the steps below to create your own mind map from a main idea or assignment.

Part 4: Reviewing and Using Your Mind Map for Study

1. Highlight Key Points

- Go through your mind map and highlight the most important terms or ideas that you need to focus on.

2. Use the Mind Map to Quiz Yourself

- Cover certain parts of the mind map and try to recall the information on your own. This will help strengthen your memory.
- **Example Quiz Questions:**
 - What are the main subtopics?
 - Can you define each subtopic without looking?

3. Reflection

- How did creating a mind map help you organize and remember the information?
- What would you change next time when creating a mind map?
