Worksheet #5: "Using GenAI to Create Custom Mind Maps and Concept Webs" Part2~ S2E10

Overview

This worksheet will help you use AI tools to create a mind map or concept web. Mind maps and concept webs visually organize information, making it easier to understand complex topics and remember key details. Follow the steps below to create your own mind map from a main idea or assignment.

Part 2: Using AI Tools to Generate Mind Maps

1. **Selecting an AI Tool**

   o Choose an AI tool to help you generate your mind map. Options include tools like MindMeister, Canva for mind map templates, or Lucidchart.

   o **Chosen Tool**: _____

2. **Inputting Information into the Tool**

   o Start by entering your main idea in the center of the mind map.

   o Add your subtopics as branches from the main idea.

   o Use the tool to generate additional ideas or details for each subtopic, if available.

3. **Reflection Question**

   o Did the AI suggest any new ideas or connections that you hadn't considered? How can these help you understand the topic better?
