Worksheet #4: "Using GenAI to Create Visual Study aids" Part 2 S2E8

Overview

This worksheet will help you use AI tools to create visual aids from your course notes and content. Visual study aids like diagrams, illustrations, and posters can make complex information easier to understand and remember.

Part 2: Using AI Tools to Generate Visuals

1. **Selecting an AI Tool**

   o Choose an AI tool that can help you generate visuals, such as DALL-E for illustrations, Canva for design templates, or Lucidchart for diagrams, Miro, draw.io, coggle, adobe express, AutoDraw Google.

   o **Chosen Tool**: _____

2. **Inputting Information into the Tool**

   o Use your notes and slides to decide what kind of visual aid you need. For example:

     ▪ **Illustrations** for vocabulary or concepts.

     ▪ **Diagrams** to show processes or relationships.

     ▪ **Posters** to summarize main ideas.

   o Enter keywords, concepts, or instructions into the AI tool to generate visuals that represent these ideas.

3. **Reflection Question**

    o   Did the AI visuals match your expectations? How could you adjust

    them to better fit your content?
